

#NurseBraveRave

A message of support from Health Professional Bank

To all our valued business partners,

At Health Professionals Bank we're always honoured to be serving our nation's nurses. That's because we recognise their invaluable contribution to the wellbeing of our society, and also more recently all their efforts at the frontline of the current health pandemic.

This sense of gratitude and admiration is what the rest of the country feels as well, and that's why this year for International Nurses Day, which we all only just celebrated, we reached out to the public and asked them to express their support and solidarity by taking part in #NurseBraveRave, our tribute to all our amazing nurses.

The result is this ['thank you' video](#) which we dedicate as our gift to all of our nurses.

We would appreciate if you could post this video on your social media forums/website and share it as widely as possible, because we want to make sure all nurses get to feel the love!
